

25 April 1974

MEMORANDUM FOR: Mr. Lapham

SUBJECT :

1. Attached are the Section Cs for 10 KIQs which were submitted by COMIREX. They are incomplete with respect to the following.

2. [] is preparing another amplifying remark which is illustrated in KIQ 2c, Part 2 in paragraph 2 of that Amplifying Data Section. He will provide such an input for each Section C for which COMIREX has a probability of collection. I think you will agree that COMIREX has done its customary thorough job.

3. [] tells me that once they had worked out the pattern of their response the job could be done with relative ease.
